* Lower premiums representative of customers with the same underwriting criteria taking a policy without telematics monitoring

MEASUREDMILES
Telematics Smart Box Insurance

GET LOWER PREMIUMS ON YOUR CAR INSURANCE* WITH TELEMATICS SMART BOX INSURANCE FROM MEASURED MILES.

WHAT IS TELEMATICS?

A Telematics Smart Box, also known as a black box, is a small device that collects data about your driving. Having a Telematics Smart Box installed with Measured Miles means that you could get much lower premiums on your car insurance from the start!*

CUSTOMER BENEFITS

Lower premiums from the start!*

A Telematics Smart Box policy will lower premiums substantially from the start.

Only pay for the miles you drive!

Choose a mileage that suits your needs. If you don't drive much, the premium will be lower. After all, why pay for miles you're not going to use?

No Curfews!

You'll have complete freedom to come and go as you please. Driving at night may affect your driver score, but there's no curfew!

Information at your fingertips!

Access information about your driving 24/7 through the online driver dashboard.

24/7 Claims Support!

Measured Miles insurers will provide access to professional claims advisers who are on hand to help 24 hours, 7 days a week.

Peace of mind!

If your car is stolen, it can be traced to its last known location with the GPS vehicle tracking within the Telematics Smart Box.

Safer driving is rewarded!†

Drive safely and savings are applied when you buy additional miles or renew.

Contact your broker today to start saving on your car insurance!

* Lower premium representative of customers with the same underwriting criteria taking out a policy without telematics monitoring.

† Subject to demonstrating safe driving behaviour and typical underwriting criteria.
